We keep the Automotive Industry running:
Dynamically, efficiently and innovatively

For more than 10 years now, Modix is the number one in digital marketing of automobiles and offers manufacturers and dealers solutions for online sales and marketing worldwide. We are part of the US-based Cox Group and can rely on the network and possibilities of an international enterprise and combine this with the flexibility and individual support of a company under owner management.

Become a part of our team
Web Developer (m/f/d)

This is where you work!
- Team spirit has a high priority: we think and work together.
- HTML5, CSS3, Smarty in combination with JS, jQuery and XSLT are in action – quality and further advancements are ensured through regular code reviews.
- Our CMS is optimized for the worldwide production of big automotive-portals and therefore offers a professional basis for the whole team.
- You can focus on your job as a developer – the project managers are responsible for client contact and task coordination.

This is what you do!
- You administer websites and vehicle portals independently with our own in-house CMS for national and international clients.
- You implement and maintain new and existing projects and layouts.
- You are an active part in the analysis of demand regarding specifications and implementation and assist in the estimation of costs.
- You develop new internal standards and templates, closely working together with your team.
- You are involved in the quality management of projects developed in front end and assist with 2nd-level-support-questions.

These are your abilities!
- Successfully completed studies in computer science or comparable study program
- Or: Completed comparable training as IT specialist for application development (m/f/d) or media designer (m/f/d)
- Proficient in HTML, CSS and JavaScript
- Good knowledge of jQuery
- Fundamental knowledge of Template-Engines (e.g Smarty), SASS/SCSS and Content-Management Systems
- Experience with frontend/system, especially in responsive areas
- Fundamental knowledge of PHP
- Good to very good writing and verbal communication skills in German and English
- Knowledge of SEO, Analytics (Google, GTM, Adobe), Adobe XD and Photoshop of advantage

- Structured and goal-oriented working method

This is what we offer!
- Personal development and regular trainings
- Chances of promotion in an innovative company
- Trust-based working hours
- Overtime pay
- Coffee and snack service
- Optimal equipment
- Reimbursement of moving costs by relocation to the region
- Regularly held employee events
- Free parking
- Pioneer spirit and joy on the job in a technology-minded team
